

Roger Snyder, DOE Fermi Site Office Manager

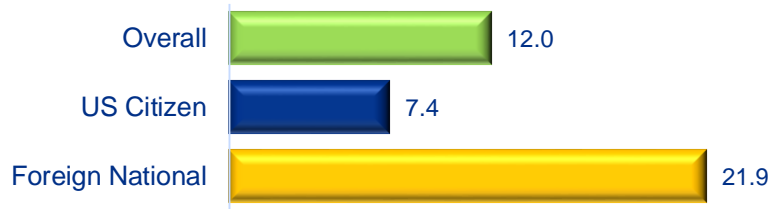

Adapted from D. Glenzinski and B. Sherin, 11 March 2024, Fermilab Site Access Steering Committee presentation

Site Access – By the Numbers

20.2K REQUESTS (12 MONTHS)

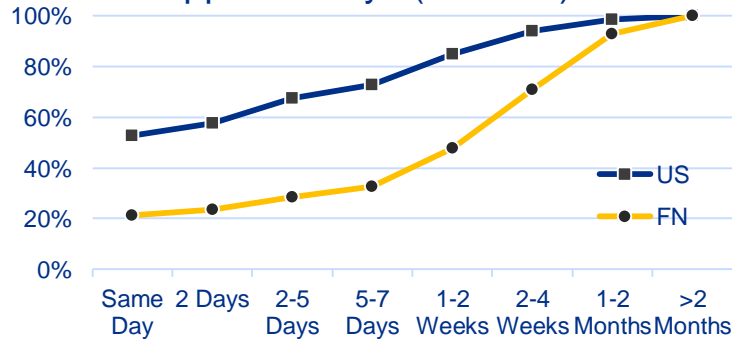

Average Days (CY2023)

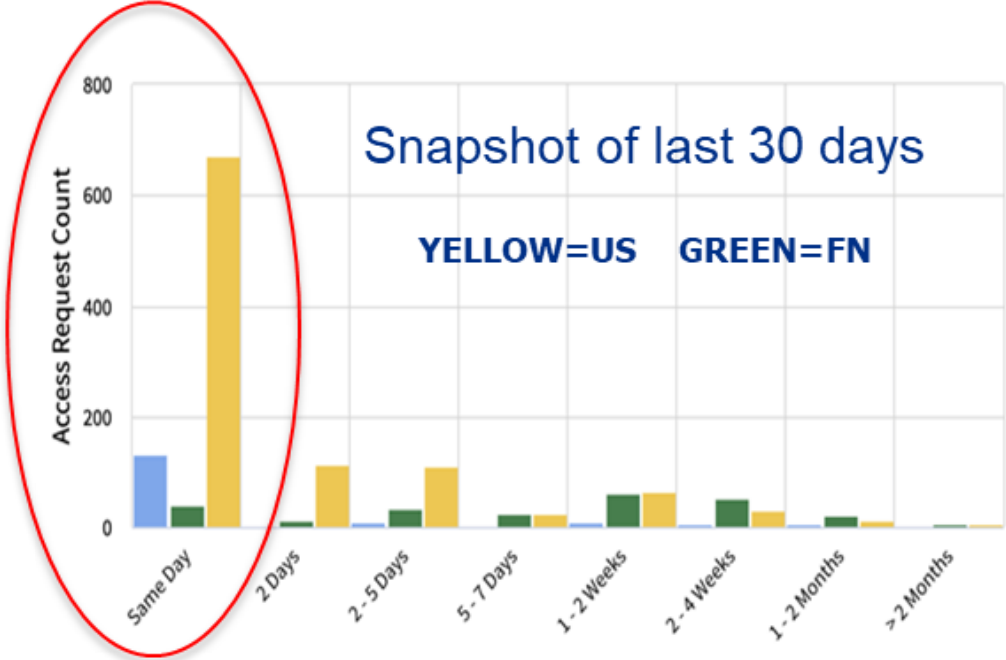

Legend: Overall (Green), US Citizen (Blue), Foreign National (Yellow)

Approval Days (CY2023)

Site Access – By the Numbers

Progress to Date – Most Impactful Improvements

- Substantially improved communications
 - Hundreds of questions, dozens of stakeholder meetings, frank and open conversations
- Opening of major buildings to badged personnel
- Single-Form Access Request
 - Access request process streamlined and release of invitation system
 - Approval times have reduced by a factor ~3 due to fewer steps and reduction of errors
- Re-opening of public spaces in Wilson Hall
 - Completion of access control system in non-public spaces

Security & Safety Areas: Current

Public GAA

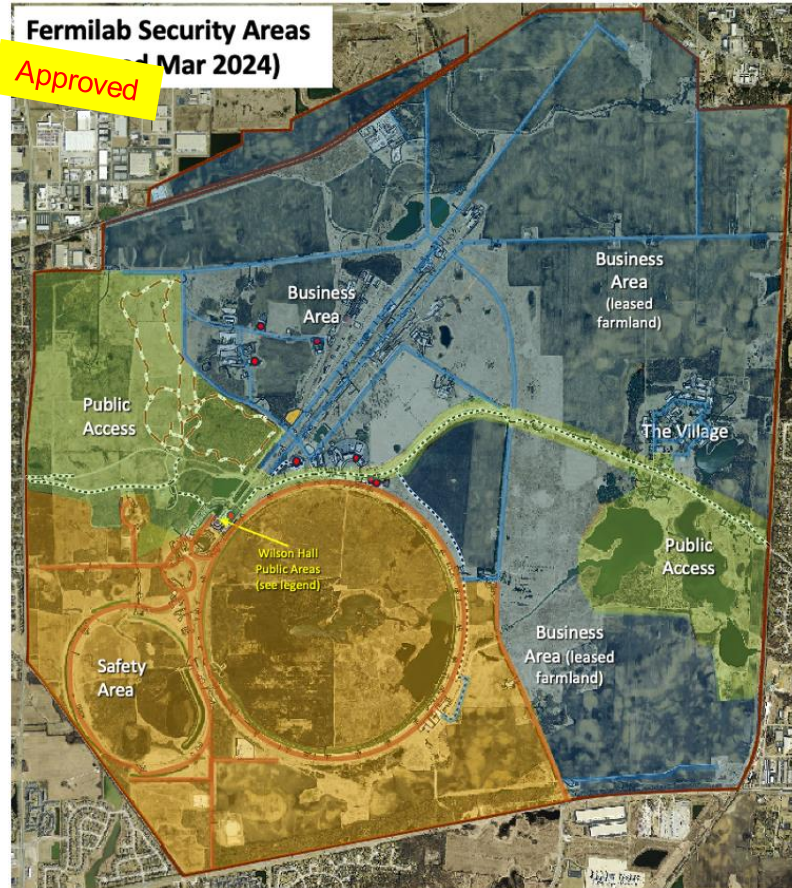

- Open to public, REAL ID for site access
- Wilson Hall
 - Ground floor (excl. S&R, machine shop, etc.)
 - Atrium & Cafeteria
 - Auditoriums
 - WH-2X Art Gallery/Conference Rooms
- Building 327
- Lederman Science Center
- Nature areas & bison viewing
- Aspen East Fermilab Welcome Center

Business

- Buildings open to appropriate badged personnel and business visitors
- Includes leased farmlands
- Non-public business roads indicated in **blue**

Safety

- Badged personnel with required training and hazard mitigations
- Non-public safety roads indicated in **brown**

Security (PPA)

Higher security, access limited to individuals appropriately screened and approved by line management. Security Areas designated as PPA based upon Security Risk Analysis and DOE O 473.1A and 470.3C

- Specific Buildings or labs
- Controls implemented at the Building

What's coming—

- Updated software for public visitors
 - Less time at gate
 - Eliminates need for handwritten public sticker badge
- Fermilab Welcome & Access Center (delayed)
 - Award expected this Summer
- New State-Funded Guest Housing Facility
 - Funding not yet received by Fermilab
- Re-evaluating Village security
 - Possibly moving the guard gate inward
 - @Eola (day) & back to at @site boundary (night)
