Washington, DC 20585

NOV 16 2010

Dr. Eric D. Isaacs
Director, Argonne National Laboratory
President, UChicago Argonne, LLC
9700 South Cass Avenue
Argonne, Illinois 60439

Dear Dr. Isaacs:

It is a pleasure to inform you that UChicago Argonne, LLC (UC-A) at the Department of Energy (DOE) Argonne National Laboratory (ANL) site has successfully demonstrated compliance of its Earned Value Management System (EVMS). You are hereby presented with this letter attesting to Certification of your EVMS.

This certification is based upon DOE's Office of Engineering & Construction Management (OECM) compliance analysis of the UC-A EVMS as implemented, and as demonstrated at our OECM on-site review conducted August 23-26, 2010, and subsequent implementation and validation by OECM of corrective actions by UC-A. Compliance of the UC-A EVMS is as specified by the American National Standards Institute/Electronic Industries Alliance 748 Standard (ANSI 748). DOE's certification requires application and maintenance of continuing compliance per ANSI 748 across all UC-A capital asset projects as executed under DOE Order 413.3.

DOE expects UC-A to maintain continuing compliance through annual surveillance reviews and submittal of resulting report(s) directly to OECM. During the UC-A contract with DOE, OECM may perform its own surveillance review(s). Recognizing that management systems are dynamic and to help ensure UC-A EVMS effectiveness, OECM encourages continuous improvement by UC-A as long as compliance remains per ANSI 748. UC-A shall promptly notify OECM in writing of any such change(s).

DOE congratulates you on this certification. UC-A has achieved a significant milestone by demonstrating a performance measurement system that provides valid data and is effective in managing project performance.

Sincerely,

Paul Bosco
Director,
Office of Engineering and
Construction Management
